Plan Submittal Requirements for New One & Two Family Construction

Complete set of plans Which include the following information required by the Inspection Department
Allow ten days review time on all plans.

Note: **All plans listed below shall be fully dimensioned and drawn to scale**

- Site Plan: Include size and location of buildings, driveway, walks, and utility locations. Include the legal description of the lot. Property corners are to be staked. Proposed finish floor elevations shall be indicated on plan. Site drawing shall include the required erosion control details.
- Foundation: Plan shall include size and location of all footings and foundation walls, pier pads, beam pockets, etc.
- Floor Plan: Size and locations of all rooms, doors, windows, etc. Size, species and grade of all structural components, headers, joists, beams, rafters, drawings and specifications of all roof trusses.
- Section & Detail Drawing: Vertical section through an exterior wall showing size, materials, fastening and structural support systems.
- Elevation: Show front, rear, and sides (window & door heights and sizes). Location of meter socket, gas utilities, etc.
- Heat Loss Calculations: DILHR approved heat loss calculation form to be used.

Uniform Dwelling Code Inspections Required During Construction

1. Footings: When footings are formed and ready to be poured.
2. Rough Framing: When all framing is complete.
3. Plumbing:
 - (a) Underground DWV and water distribution (pressure or water test)
 - (b) Sewer and water laterals (leave all plumbing exposed for inspection – pressure or water test)
 - (c) Above ground DWV and water distribution (pressure or water test) before piping is covered.
4. Electrical:
 - (a) Electrical service inspection
 - (b) Rough wiring – all wiring must be inspected before insulation.
5. Mechanical:
 - (a) Rough in
 - (b) Pressure test of any gas lines
6. Insulation: Inspection required after insulation and vapor barrier are installed and **before** any sheetrock is hung
7. Occupancy: Upon completion, the house **shall** have a final inspection **before** the house is occupied.

The general contractor is responsible for verifying all inspections have been completed before sheet rocking is started. Individual trades are responsible for scheduling the respective inspections. Provide a minimum **48 hour notice for inspections. 715-556-0066 Weber Inspections**
